GEN.A.P.STEWART TO LEGISLATURE

Asks Appropriation for Chickamauga Park.

CHRISTIAN GAME BILL BEATEN

Mr. McIlwaine Knocks it Out in the Senate Brief Session of the General Assembly-The Day's

There were two features of the session of the Legislature yesterday. One was the defeat of the bill in the Senate offered in the House by Mr. Christian, of Richmond, incorporating the Virginia Game Protective Association, and the Game Protective Association, and the other was an address to the two houses by General A. P. Stewart, of Tennessee, in favor of an appropriation to mark the position of the Virginia troops at the battle of Chickamauga.

Beyond these there was little of interest in either branch. Both houses cleared their calendars of uncontested matter, but took up no bills that would provoke discussion. The House session lasted until 1:30 P. M. while the Senate session lested only forty minutes. Both bodies wil, have busy sessions to-day, as their to endars contain many important bills. Send Your Application At Once To The Physician's Institute.

They Will Send You Absolutely Free One of Their 100 Guage Supreme Electric Belts, the Belt Which Has Made so Many Wonder ful Cures-You Needn't Send Even a Postage tramp, Just Your Name and Address.

Seven years ago the State of Illinois granted to the Physicians' Institute of Chicago a charter. There was need of something above the ordi-nary method of treatment for chronic diseases.

There was need of something above the ordinary method of treatment for chronic diseases, something more than any one specialists or any number of specialists acting independently could do, so the State itself, under the powers granted it by its general laws, gave the power to the Physicians' Institute to furnish to the sick such help as would make them well and strong. Ever since its establishment this Institute has endeavored in every possible way to carry out the original purposes of its establishment under the beneficient laws of the State.

Three years ago, the Physicians' Institute, realizing the value of electricity in the treatment of certain phases of disease, created under the superintendence of its staff of specialists an electric belt, and this belt has been proved to be of great value as a curative agent. From time to time it has been improved until it reached that stage of perfection which warranted its present name of "Supreme."

This belt is the most effective of all agents in the Cure of rheumatism, lumbago, lame back, nervous exhaustion, weakened or lost vital functions, varioccele, kidney disorders and many other complaints.

This "Supreme Electric Belt" is made in one grade only—160 guage—there is no better electric belt made and no better belt can be made. Whenever in the opinion of our staff of specialists the wonderful curative and revitalizing forces of electricity will cure you we send you, free of all cost, one of these Supreme Electric Belts. 'It is not sent on trial, it is yours to keep forever without the payment of one cent. Tals generous offer may be withdrawn at any time, so you should write to-day for this free "Supreme Electric Belt" to the Physicians' Institute, at 2086 Mesonic Temple Chicago, Jils. around the park had made litting appropriations, while only five Southern States had responded. Mr. Wysor said he was sick and tired of so much speaking. He was going to cuit next Saturday and go home, and he wanted to get through by then. It was evident to everybody that the permanent understanding clause would be overwhelmingly defeated, and it was ridiculous to be wasting weeks and weeks of further argument on it. The resolution was defeated by a vote of 3 to 49.

was defeated by a vote of 9 to 49. Mr. Glass explained again the difference between his plan and the majority plan. The whole question was between the temporary or the permanent understanding principle. He claimed the temporary would not disfranchise any nere white people than the permanent plan. The understanding clause of his plan would apply to only 10,000 white veters, while the permanent plan would lave to be administered to 156,000 white veters. He moved to strike out the first veters. He moved to strike out the first sixty-live lines of the majority report and substitute sections 1 and 2 of his plan, which had been accepted by the minority of the committee.

MR. WYSOR'S MOTION.

Mr. Wysor called on all to come to a vote for the temporary understanding clause, to defeat the permanent clause. He would then vote to defeat the temporary understanding clause, and send Messrs. It was decided that if the amendment was adopted, it would not prevent the offering of other amendments in its place, and when the final vote was taken, if the amendments were adopted, the majority report could be offered as a substitute for all, as a substantive prope-

many worthy Confederates who not fortunate enough to get on the pen-sion roll of the State. He knew of sol-diers on the pension roll of Virginia who were never in the war; he knew of some drawing pensions who owned valuable farms; he called a list of counties and the number of pensioners, showing that while his county had only thirty pen-sioners, another which. sioners, another which did not send half as many soldiers in the war had 400 on the rolls. Rockingham county, which sent a whole regiment of infantry and many cavalry and other troops, had only 250 pensioners, while another county, not half so large, had 500 pensioners. The Captain further contended that

this discrepancy would produce untold friction between the different counties and would further result in a wild scramble before every Legislature to add to the list of pensions for the purpose of ex-tending the list of those excepted from payment of the poll tax.

The amendment was defeated. Mr.

Carter proposed an amendment limiting the exemption from the poll tax prerequisite to those who served in the latwar between the States. This was almost unanimously adopted, and the conference adjourned at 6 o'clock until to-day.

Says a well known car specialist:—
"Deafness in ninety per cent. of the cases is the direct result of closure of the custachian tube (a little passage-way leading from the middle car to the back part of the throat) from a catarrhal inflammation of its mucous membrane. Then follows a rarefaction of air in the middle car, with consequent intrusion of the drum, and an impaction of the ossicular articulations, and a progressive stenosis of the custachian tubes."

An editorial in The Medical Brief, a journal published by and for physicians and having the largest circulation of any strictly professional medical publication in the world, says: (10-1901, P. 1517.)

"Deafness is nitested by many worthy and reliable people.

Mr. C. R. Rembrandt, of Rochester, N. Y., says: "I have suffered much from catarrh of the head, throat and stomach. I used sprays, inhalers and powders for months at a time with only slight relief and had no hope of cure. I had not the means to make a change of climate, which seemed my only chance of cure. Last spring I read an account of some remarkable cures made by Stuart's Catarrh Tablets and promptly bought a fifty cent box from my druggist and obtained such positive benefit from that one package that I continued to use them daily, until now I consider myself entirely free from the disgusting annoyance of catarrh; my lead is clear, my digestion all I could ask and my hearing, which had begun to fail as a result of the catarrh, has greatly improved until I can hear as well as ever."
